Isenseven teaser for 2009

Tuesday, 10 March 2009

snowbroader.eu have just reported the new teaser from isenseven: Letâ€™s Go Get Lost. The only reason for me to re-post this is that I love the Isenseven films! They are pretty much the only crew that I actually enjoy watching nowadays. So follow the link to see the trailer.

Just watch it and you'll know what I mean. Pure excellence! Can't wait for the final product...
