Dane-Elec teams up with leading board manufacturers Burton and Santa Cruz

Thursday, 20 May 2010

Have you tried using your board for storage? Doesnâ€™t work, does it? With the new Dane-Elec action sports USB range you actually can

Dane-Elec (www.dane-elec.com), one of the leading brands in Flash memory, just released its latest range of seriously cool USB flash drives, the SnowDriveÂ® , the SurfDriveÂ® and the SkateDriveÂ®.

Dane-Elec has teamed up with the best snow, surf & skate board brands in the industry- BurtonÂ® and Santa CruzÂ® - and has created a fun range of snowboard, surfboard and skateboard shaped USB flash drives.

And for all fans of finger skateboarding (yes it is a sport, the next world championships are actually on the 22nd May in Germany http://www.fast-fingers.com/), Dane-Elec has taken one of Santa CruzÂ® best designs and created the SkateDriveÂ®.

Theyâ€™ve not only got the shape & design of the renowned boards, they are also packed with Videos, Music, wallpapers and info about your favourite board brand.

All Flash Drive designs come with a 5 year guarantee and are High-Speed USB certified. The 8GB versions store up to 3200 pictures or 13h of Video, and with their cool designs you could even hang one around your neck with a leather band. Like all other Dane-Elec Flash drives, the action sport drives have the key ring on the main part, so even if you lose the lid, you never lose your flash drive itself.
